

# Tanglewood Fire Exit Routes 2021

**Please post in your cabin**

## Exit 1 – Lavenue Property Route

Between the covered bridge and the cattle guard there is a rough road that leads down to a fence separating us from the Lavenue property. Follow the white painted rocks marking the road. There is a wire gate with an EXIT sign on it. The combination to the lock is **8181**. At the lower end of the property there is another gate with the combination: **2020**

## Exit 2 – Timber Trails (Wint Cabin)/Boyer Puls Route

Go up the hill to Mockingbird Hill road. Follow the road into the Wint property. Take the right fork of the circle drive. On your right you will see a gate with an EXIT sign. Follow the road until it forks and take the right fork. When you get out on to the gravel road, turn right going down the mountain. When you reach Willow Lane, use wire gate on right if regular gate is locked.

### Important

These are fire exits only, not for regular traffic. You may hike up the exit 2 route to access the National Forest, but **NO MOTORIZED TRAFFIC** is to be used on these roads except in an emergency.

SHOULD ANYONE IN TANGLEWOOD VIOLATE THESE AGREEMENTS WITH THE PROPERTY OWNERS, WE WILL LOSE THE RIGHTS TO THESE FIRE EXITS.
